Importance: High

PRIVILEGED AND CONFIDENTIAL

Everyone-

Recognizing potential flaws re the CDC method for calculating nicotine in filler, is there a corrected version that PM could propose to Mass.?

thanks

Kevin, Jerry let me know that we were going to use recent PM nicotine data

for the Marlboro Lights Menthol KS and 100.
He also said you would get in touch with me concerning the disclaimer for the
CDC nicotine in filler. I will be here today and tomorrow but I will be on

vacation next week. You may contact Joe Garman or Ken Podraza after this week. You were also reviewing the report format (Appendix 3). Do you have a
time frame of when we can expect to receive this?

Thanks,

"Liz" Chambers
